Storm Debris Management Workshop

March 20 - 23, 2018 from 8:00 a.m. - 5:00 p.m.

HALF DAY ON FRIDAY, MARCH 23, 2018

Who should attend this workshop?

State and local emergency management personnel; local elected officials; department heads from local public works, road and bridge, and environmental health departments; representatives of other local and state agencies that may become involved in hauling or disposing of debris in the aftermath of a disaster.

Texas Peace Officers can get TCOLE credit for 28 hours.

This course is designed to provide local officials who may have to manage debris removal and disposal in the aftermath of a tornado, flood, or hurricane with the knowledge and skills to do so. The course covers staff development, pre-disaster planning, local response and recovery actions, contracting procedures, selecting and operating a temporary debris storage site, volume reduction methods, environmental regulations, and dealing with special debris situations.

Register at preparingtexas.org for course G-202-Debris Management. **You will need to create an account with a user name and password in order to register for this course.** There is seating available for 20 persons. Please do not wait until the last minutes to register. First come, first served.
